Director

September 28, 2021

Ladies and Gentlemen:

I would like to present the 2020 Hate Crime annual report. This report is published by the TBI presenting information on reported crimes motivated by bias that occurred in Tennessee. The information contained in the report is based on crime statistics information submitted by law enforcement agencies, colleges and universities in Tennessee to TBI's Tennessee Incident Based Reporting System (TIBRS) program. TIBRS is the state version of the FBI's National Incident Based Reporting System (NIBRS) program. Please see <https://crimeinsight.tbi.tn.gov/> for additional information.

The groups toward which bias-motivated crimes may be directed are based on the national definitions and conform to the same standards used in the annual Hate Crime report published by the FBI for the United States. Any offense may be motivated by bias. The bias motivation is an element of the offense and is not reported as a separate crime occurrence.

I am very proud of the efforts of all participating law enforcement agencies, colleges and universities in the state to provide the data necessary to produce this report. Our combined efforts have resulted in this annual report detailing the nature of bias-motivated crime occurrences in our state.

Sincerely,

David B. Rausch
Director

Introduction

This report examines hate crimes reported to the Tennessee Incident Based Reporting System (TIBRS) by Tennessee law enforcement agencies, colleges and universities for the year 2020. Reporting agencies were contacted and asked to verify the accuracy of the hate crime data reported for their jurisdiction. An examination of the reported data revealed several trends and noteworthy facts that are detailed in the body of the report.

Bias Motivation

Hate crimes are often committed based on differences in personal characteristics, such as appearance, language, nationality, or religion. The key element of any hate crime is the presence of bias motivation. The criminal act alone does not define a hate crime; rather, the investigation of the crime must conclude that the offender was bias motivated. Eight bias categories are used when reporting hate crimes: Anti-Racial, Anti- Ethnicity/National Origin, Anti-Religious, Anti-Disability, Anti-Sexual, Gender Bias, Gender Identity Bias and Non-Specific.

Please note that there is an “Unknown” bias code in the Non-Specific category. The purpose of the “Unknown” bias code is to serve as a category for those offenses thought to be bias motivated and which are currently under investigation. These crimes demonstrate characteristics of a hate crime; however, a specific bias motivation code/category has not been determined. Therefore, it should be noted that a hate crime *may or may not have* transpired. Once a conclusion is made, the agencies are responsible for removing the “Unknown” bias code and properly categorizing the hate crime. Incidents that do not involve facts and/or evidence of the offender’s bias motivation are to be reported as “None.”

Methodology

The TBI collects hate crime data regarding criminal offenses that are motivated, in whole or in part, by the offender’s bias against a race, religion, sexual orientation, ethnicity, ancestry, gender, gender identity or disability and are committed against persons, property or society. It is difficult to know with certainty whether a crime was a result of the offender’s bias because motivation is subjective. Law enforcement investigation is crucial for accurate hate crime reporting because it must reveal sufficient evidence to lead a reasonable person to conclude that the offender’s actions were motivated by his or her bias. Only then can law enforcement report an incident as a hate crime.

Categories of Bias Codes

Anti-Religious		Anti-Sexual Orientation
Jewish	Mormon	Male Homosexual (Gay)
Catholic	Jehovah's Witness	Female Homosexual (Lesbian)
Protestant	Eastern Orthodox – Greek	Homosexual (Gay & Lesbian)
Islamic	Other Christian	Bisexual
Multi-Religious Group	Buddhist	Heterosexual
Atheism/Agnosticism	Hindu	Anti- Gender
Other Religion	Sikh	Male
Anti-Racial/ Ethnicity/ Ancestry		Female
American Indian/Alaskan Native	Native Hawaiian/ Other Pacific Islander	Anti- Gender Identity
Asian	White	Transgender
Black or African American	Arab	Gender Non-Conforming
Hispanic or Latino	Non-Specific	Anti-Disability
Other Race/Ethnicity/Ancestry	Unknown	Physical Disability
Multi-Racial	None	Mental Disability

Data Collection

All law enforcement agencies are mandated by the Federal Hate Crimes Statistics Act of 1990 to report all hate crimes to the Attorney General. This report utilizes data collected through the Tennessee Incident Based Reporting System (TIBRS) to identify bias motivated offenses. The national data collection guidelines stipulate that a hate crime may involve multiple offenses, victims, and offenders within one incident. Counting crimes follows the same standards used in the Crime in Tennessee publication. Crimes Against Persons and Robbery are a count of the individual victims while Crimes Against Property count one offense for each incident, regardless of the number of victims.

This report uses the minimally accepted designations for race and ethnicity as established by the Office of Management and Budget (OMB) and published in the Federal Register. The revised standards have six minimum categories for data on race and three categories for data on ethnicity. In complying with published standards, the following racial designations are used in the hate crime data collection program: White, Black or African American, American Indian/Alaskan Native, Asian, Native Hawaiian or Other Pacific Islander and Multiple Races. The ethnic/ancestral designations are Hispanic, Arab and Other Race/Ethnicity/Ancestry.

Evidence a Crime is Motivated by Bias

Because motivation is subjective, it is difficult to know with certainty whether a crime was the result of the offender's bias. Therefore, before an incident can be reported as a hate crime, objective facts must be present to lead a prudent person to conclude that the offender's actions were motivated by bias. While no single fact may be conclusive, facts such as the following are supportive of a finding of bias.

- ❖ The offender and the victim were of a different race, religion, disability, sexual orientation, and/or ethnicity/national origin. For example, the victim was black and the offender was white.
- ❖ Bias related drawings, markings, symbols, or graffiti were left at the crime scene. For example, a swastika was painted on the floor of a synagogue.
- ❖ Bias-related verbal comments, written statements, or gestures were made by the offender, which indicated his/her bias. For example, the offender shouted a racial epithet at the victim.
- ❖ Certain objects, items, or things which indicate bias was involved. For example, the offenders wore white sheets with hoods covering their faces or a burning cross was left in front of the victim's house.
- ❖ The victim is a member of a racial, religious, disability, sexual-orientation, or ethnic/national origin group which is overwhelmingly outnumbered by other residents in the neighborhood where the victim lives and the incident took place. This factor loses significance with the passage of time; i.e., it is most significant when the victim first moved into the neighborhood and becomes less and less significant as time passes without incident.
- ❖ The victim was visiting a neighborhood where previous hate crimes were committed against other members of his/her racial, religious, disability, sexual orientation, or ethnic/national origin group and where tensions remained high against his/her group.
- ❖ Several incidents occurred in the same locality at or about the same time and the victims were all of the same race, religion, disability, sexual orientation, or ethnicity/national origin.
- ❖ A substantial portion of the community where the crime occurred perceived the incident as motivated by bias.
- ❖ The victim was engaged in activities promoting his/her race, religion, disability, sexual orientation, or ethnicity/national origin. For example, the victim was a member of the NAACP or participated in gay rights demonstrations.
- ❖ The incident coincided with a holiday or a date of particular significance relating to race, religion, disability, sexual orientation, or ethnicity/national origin, e.g., Martin Luther King Jr. Day, Rosh Hashanah.

Federal and Local Hate Crime Legislation

Hate crimes have been the topic of several discussions and forums in legislation across the country for many years. The push for legislative action often occurs after a highly publicized incident in which some form of bias is determined to be the main motivation for the offense. These cases involving hate crime have significantly contributed to the development or enhancement of federal and/or state hate crime statutes.

The chart below details some significant Hate Crime Statutes at both the Federal and State levels.

Tennessee Hate Crime Statutes (State)		United States Hate Crime Statutes (Federal)	
1989	Tennessee Code Ann. 39-17-311	1969	Hate Crimes Provision Act
Criminalizes intentional desecration of places of worship and burial as well as the state or national flag.		Permits federal punishment for bias motivated crimes based on religion, race, and national origin.	
1990	Tennessee Code Ann. 39-17-309	1990	Hate Crime Statistics Act
Establishes intimidation of others from exercising civil rights through injury or threat of injury as well as damaging or defacing real or personal property as a Class D felony. Also allows victims to seek remedies in criminal or civil court in addition to the provided penalties.		Requires all law enforcement agencies in the United States to submit annual hate crime data to Attorney General. Establishes guidelines for data collection and states that data will only be used for research and/or statistical purposes. Attorney General will publish an annual summary of data acquired.	
2008	Tennessee Code Ann. 40-35-114	1999	Hate Crimes Prevention Act
Amends Criminal Sentencing Reform Act of 1989 so court may consider enhancing defendant's sentence when victim vulnerable due to age or physical or mental disability. Also enhances sentence if victim was intentionally selected due to defendant's belief or perception of race, religion, color, disability, sexual orientation, national origin, ancestry, or gender.		Prohibits intentional bodily injury based on race, religion, or national origin. Adds gender, sexual orientation and disabilities as federal hate crime categories. Offenses prosecuted as felonies when fire, firearm, or explosive is used to attempt or achieve bodily injury or death.	
		2009	Matthew Shepard & James Byrd, Jr. Act
		Extends Federal Hate Crime Act of 1969 to include crimes motivated by individual's actual or perceived gender, sexual orientation, gender identity, or disability.

A bias motivation of 'Unknown' is usually not a Hate Crime. Whoever entered the report didn't know if there was a bias motivation or not. However, if the incident is entered with a bias of 'Unknown' instead of 'None' the incident will be classified as a Hate Crime.

Comparison of Offense Types Motivated by Bias

Persons vs. Property

Hate crimes, by their nature, are typically committed against individuals. Society is rarely reported as the victim of bias-motivated offenses, and those incidents have not been included in this report. Offenses analyzed in this report include **Crimes Against Persons and Crimes Against Property**. Crimes where the bias is reported as “Unknown” will not be included in the analysis portion of this report.

Bias-motivated offenses categorized as Crimes Against Persons accounted for 80.0% of all hate crimes in 2020. Crimes Against Property accounted for 20.0% of all hate crimes reported. Race/Ethnicity/Ancestry Bias accounted for 67.5% of reportable known bias motivation categories while the second most frequently reported bias was Sexual Orientation Bias accounting for 20.0%.

Crimes Against Persons

Burglary	1
Destruction/Damage/Vandalism	19
Robbery	2
Fraud - Identity Theft	0
Theft - Shoplifting	0
Theft – All Other Larceny	1
Motor Vehicle Theft	0
Total	24

Intimidation was the most reported offense type with 28.3% in 2020, followed by Aggravated Assault (19.2%) and Simple Assault (8.3%). When examining the Crimes Against Property data, Destruction/Damage/Vandalism was the most frequently reported offense with 92.3%.

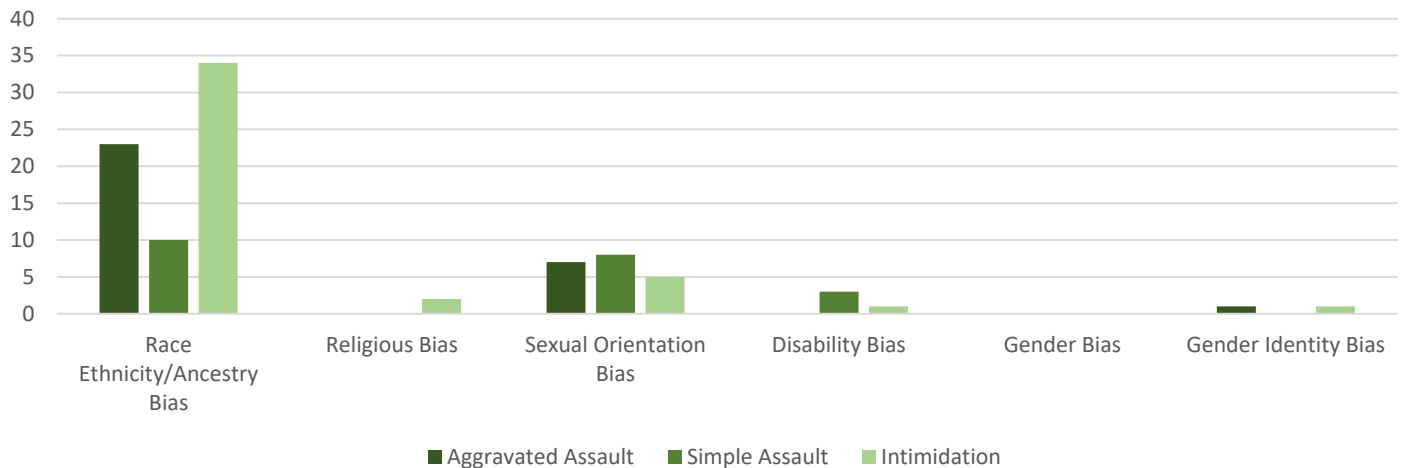

Crimes Against Persons

Weapon Type

The chart above illustrates Weapon Types used in Crimes Against Persons. Up to three weapons may be reported with any offense requiring weapon entry. Of the weapons reported, the most commonly reported weapon type category was Personal Weapons (Hands, Fist, Feet, Arms, Teeth, Etc.) at 41.8%. The second most frequently reported weapon type was Firearm, which includes the use of a Handgun, Rifle or Shotgun, accounting for 32.7% of reported weapons.

Bias Motivation Types in Crimes Against Persons

Offenses categorized as Aggravated Assault, Simple Assault and Intimidation overall increased by 6.7% from 2019 to 2020. The two most reported bias groups reported in 2020 were Race/Ethnicity/Ancestry Bias at 70.5% followed by Sexual Orientation Bias at 21.1%. Intimidation was the most reported offense categorized as Crimes Against Person and increased by 38.7% from 2019 to 2020. Simple Assault decreased by 46.2% while Aggravated Assault increased by 63.2% from 2019 to 2020.

Crimes Against Property

The TIBRS category of Crimes Against Property includes offenses such as Burglary, Counterfeiting/Forgery, Destruction/Damage/Vandalism, Fraud, Robbery and Theft – All Other Larceny. Out of all the Crime Against Property offenses reported in 2020, Destruction/Damage/Vandalism accounted for 86.4%. Over the past three years, this offense has been the most frequently reported Crime Against Property.

Destruction/Damage/Vandalism

The chart above compares the bias-motivated offenses for Destruction/Damage/Vandalism from 2018-2020. From 2018-2020, the overall offense count has decreased. Race/Ethnicity/Ancestry Bias decreased 25.0% from 2019 to 2020 while Religious Bias also decreased by 25.0% from 2019 to 2020.

Crimes Against Persons vs. Crimes Against Property

The chart above represents a comparison between Crimes Against Persons vs. Crimes Against Property by Bias Motivation type for 2020. Race/Ethnicity/Ancestry Bias was the most frequently reported bias in 2020 as it has been the past three years.

Hate Crime Victims

In 2020, there was a total of 391 hate crime victims reported. Out of the 391 total victims, 273 of those victims were with an Unknown Bias, meaning that the “offender’s motivation not known.” Per TIBRS, Unknown Bias are thought to have characteristics of a bias motivated offense and are currently under investigation to determine a specific category. Victims reported with an Unknown Bias are not included in the chart below.

Victims by Year

The bias category of Race/Ethnicity/Ancestry Bias decreased by 22.1% from 2018 to 2020. Religious Bias saw a decrease of 76.9% between 2018 to 2020. Males were victimized at a higher rate at 53.8% than females at 46.2%. Victims who were identified as White accounted for 51.9% of reported victims while Black or African American made up 45.3%.

Victims by Age

The data from 2020 revealed that the age group category of 35-44 was the most frequently reported age group which accounted for 21.7% followed by the age group of 25-34 at 17.9%. The age group that was victimized the least was 65 and over at 4.7% while there was one victim with an unknown age.

Juvenile Victims and Offenders

There was a total of 16 victims of known bias hate crime offenses that were juveniles in 2020. Juvenile victims that were classified as White made up 65.4%, while Black or African American accounted for 34.6% of reported victims.

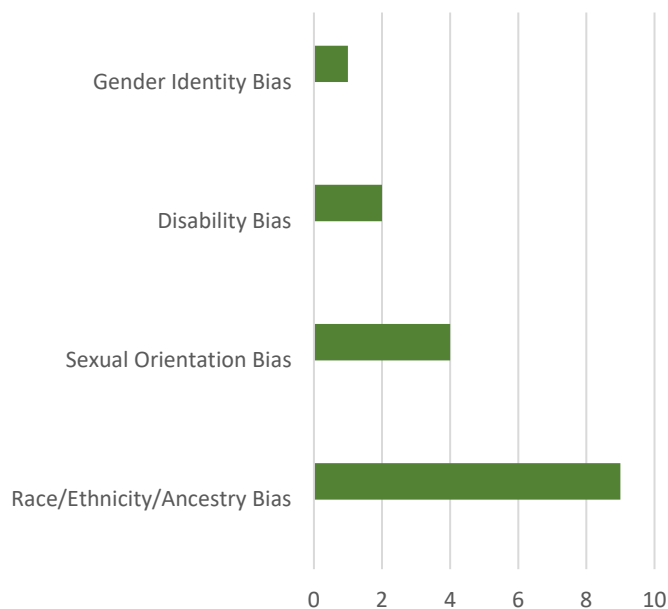

When comparing the data, juvenile victims were compiled of 66.7% female and 33.3% male in 2020.

When looking closer at the data, there was a total of 10 adult offenders that committed hate crimes against juvenile victims. 37.5% of the offenders were under 18 when hate crimes were committed against juveniles.

Juvenile Victims	
Offense Type	Total
Aggravated Assault	4
Simple Assault	4
Intimidation	8
Total	16

Offenders Against Juvenile Victims		
Offender Age	Male	Female
Under 18	5	1
18 to 24	1	0
25 to 34	5	1
35 to 44	1	0
45 to 54	1	0
55 to 64	0	1
65 and over	0	0
Total	13	3

Juveniles by Bias Type

In 2020, the Race/Ethnicity/Ancestry Bias accounted for the most reported bias at 56.3% while Sexual Orientation Bias was the second most reported bias at 31.3%. Disability Bias and Gender Identity Bias both reported 6.3% of the total number of juvenile victims.

When and Where

Time of Day

Time of day, location and day of week data are examined to identify when and where hate crimes occur. The Time of Day that was the most reported was the time period between 9:00pm – 11:59pm accounting for 17.1% of hate crimes in 2020. The second most frequently reported time of day was 6:00pm – 8:59pm at 16.2%.

Location

Per TIBRS, more than one location category may be reported in an incident. The data reveals that the location type most frequently reported was Residence/Home (29.4%) followed by Transportation (21.3%) and Commercial (14.4). Per TIBRS, commercial locations include, Convenience Store, Service/Gas Station and Grocery/Supermarket, etc.

Day of Week

The day of the week that reported the most hate crimes was Friday accounting for 18.8% of reported crimes. The second most frequently reported day of the week was Tuesday at 17.9%. The least reported day of the week was Saturday at 8.5% of reported hate crimes.

Race/Ethnicity/Ancestry bias motivated incidents occurred more on Wednesdays and Fridays than they did on any other days of the week.

Hate Crime Offenders

Male offenders accounted for 78.5% of reported hate crime offenders, while female offenders made up 12.9% in 2020. Offenders with an Unknown gender accounted for 8.6% of reported hate crimes. White offenders made up 61.1% of hate crime offenders while Black or African American accounted for 28.4%. American Indian or Alaska Native (1.1%) and offenders with an Unknown race (9.5%) accounted for the rest of the hate crime offenders.

Offender Race by Bias Type

Note: Unknown Bias where the 'offender's motivation is not known' is not included in the above chart.

Offender Age

Note: Unknown Bias where the 'offender's motivation is not known' is not included in the above chart.

The age group of 25-34 accounted for 20.0% of known hate crime offenders. The second most frequently reported age group was 35-44 at 18.9% while the least reported age group was 65 and over at 4.2%. There was also 16.8% of offenders with an Unknown age reported in 2020.

Hate Crimes and Clearances

When examining the data from hate crime offenses in 2020, thirty-two of the offenses were cleared by arrest in TIBRS. Six of the hate crimes reported were cleared exceptionally, which includes when the victims refuse to cooperate or when prosecutor declines to prosecute.

There are numerous factors that contribute to the low clearance rate of bias-motivated crimes. Among other things, time of day and location in which the offense occurs could affect the availability of essential law enforcement investigation elements such as evidence, witnesses, etc. Furthermore, a victim’s fear of retaliation can also be considered when evaluating whether a hate crime is cleared or not.

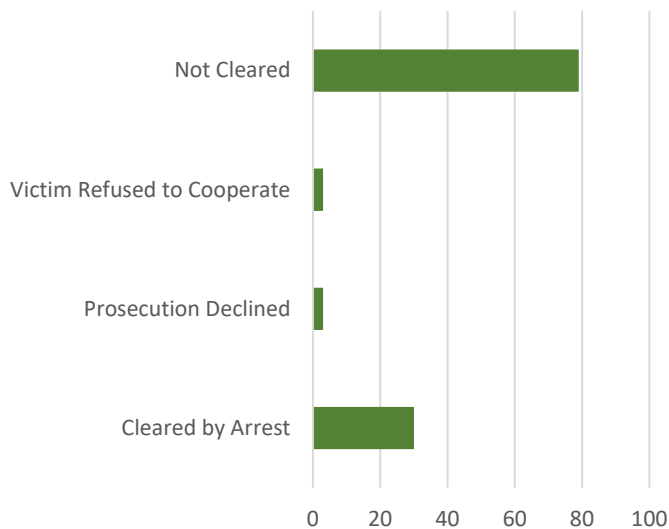

When examining the Victim to Offender relationship data, the data reveals that 53.2% of the victims knew the offenders.

Hate Crime Incidents Cleared by Arrest	
Offense Type	Cleared
Crimes Against Persons	
Aggravated Assault	9
Simple Assault	6
Intimidation	11
Stalking	1
Crimes Against Property	
Destruction/Damage/Vandalism	2
Robbery	1
Total	30

The offense types that were most frequently reported in 2020 were Aggravated Assault and Intimidation accounting for 66.7% of hate crime incidents that were cleared by arrest.

Out of all the hate crimes reported in 2020, 68.7% of the incidents were not cleared whereas incidents where the prosecution declined and the victim refused to cooperate accounted for 2.6% each of the reported incidents.
