**DIVISION OF TENNCARE**  
**FISCAL YEAR 2023-2024 BUDGET HEARING**

# Division of TennCare

## TennCare Evolution

Tennessee's Medicaid program has transformed from a limited service, unpredictable and unsustainable plan to one that is comprehensive, sustainable and highly valued.

# Division of TennCare

## Meeting Other State Priorities and Obligations Depends on Effective Medicaid Management

If TennCare's trend rate had tracked the national Medicaid state average, Tennessee would have spent an additional **\$5.2 billion** more in cumulative state dollars to run the current Medicaid program and TennCare's current budget would require **\$1.2 billion** more in state dollars.

# Division of TennCare

## High-Quality Care For All Members

### Children & Families

The Patient-Centered Medical Home initiative led to a 20% increase in key childhood immunizations.

The EPSDT screening rate in 2020 was above 80% for children under the age of five.

### Adult & Pregnant Members

Diabetes, asthma, high cholesterol, blood pressure treatment, and access quality measures all improved for adults in 2020.

Postpartum visits in the first 3 months after delivery increased for a third year in a row in 2020.

### LTSS

Over 500 individuals transitioned out of nursing facilities to live safely in home and community-based settings during FY20 (over 5,500 since 2010).

Average annual cost for members served in nursing facilities is \$86k compared to \$29k in HCBS settings.

### Opioid Epidemic

NAS births decreased by 31% from 2016 to 2020. TN is the only state reporting a continued decline among Medicaid members.

Over 9,200 TennCare members received Medication Assisted Treatment (MAT) and Recovery services from high-quality providers in SFY21.

Our quality initiatives and success are reflected in annual external surveys of TennCare members, **with member satisfaction now at 95%, continuing a trend of being above 90% for more than a decade.**

## TennCare III – Continued Improvements and Innovation

---

- Historic investments have been made in TennCare over the last two years:
  - ✓ New comprehensive adult dental benefit
  - ✓ Postpartum coverage extension
  - ✓ Health Starts initiative to address non-medical risk factors
  - ✓ Targeted provider investments
  - ✓ **Waiting list for individuals with intellectual and developmental disabilities seeking services in ECF CHOICES eliminated**
- Future shared savings will result in further investments
